

## Spirit To Spirit

Yochana the Psalmist

Spirit to Spirit - Psalmist does call out across the land

I know you are out there - you 144 thousand

In this realm or the better - just awaiting for G\_D's seal

Feel it, know it, believe it - all of this is real

Onslaught it be coming - you can feel it deep inside

Time to think of shelter - somewhere to reside

A place where G\_D will lead you - show you where it is

This our LORD shall do - you are special - you are HIS

Do you call out to the elect - do you beckon some to you

Or do they just keep cleaving - this could happen too

But be aware you must - with G\_D there will be order

Please listen to my plea - time is getting shorter

Now more than before - so many seem to slumber

The remnant need a guide - they be so small in number

Awaken to the call - time to listen and take a stand

No time for playing church - now comes reprimand

## Spirit To Spirit

Yochana the Psalmist

Spirit calls to spirit - please Beloveds pray

Destiny is calling - you just can't turn away

Open up your hearts - upon you others will depend

It is you to whom the friends - G\_D will surely send

Be it just like Noah - or even Rahab the prostitute

Destined to survive - this you can't refute

G\_D desires Israel - to stand and be haEdah

Witnesses to Him - witnesses to HIS YESHUA

Can you see our Lord's selections - patterns that do sing

We find the pure and unblemished - in the humble and base things

Many sayings be literal - others given to be a shadow

Look for signs and pray - Spirit tells you what to say

Await the declaration - it won't be of your self

A message it will come - He'll send all necessary help

But know that action is needed - time to get in gear

Psalmist calls out to you now - for the time is near

## Spirit To Spirit

Yochana the Psalmist

Time to speak to loved ones – time to consider end days

The storm is surely coming – it be on the way

Even short of faith and perhaps with little trust

Soon they must be told – despite these things you must

This be about survival – this be about Yeshua's reign

This be about filling up Israel's bridal train

Be it tzit-tzit or robe – some will grab on tight just few

They knowing in their hearts – that G\_D really is with you
