

What's Going On

Yochana the Psalmist

What's going on in this world right now
Should we be mindful - should we show extra care
Oh what to do - oh what is our how
Should we be considering - extra prayer?

Seems like the same old - same old
Seems as if things could be worse by far
Oh believing children - do come in from the cold
Like the wise men of old - do follow the star

Signs and wonders - oh so often ignored
As in the days gone by - who would believe the report
But alignment celestial - soon be coming our way
Oh so very close to 5777 Yom T'ruah day

Perhaps the counting of years it be wrong
Perhaps we know less than we thought
But the Heavens in their courses do sing their song
Coming to mankind - is what we have wrought

How many are watching our G_D's seasons
Not just playing Torah - but paying attention
Contemplating HIS mystery and all of HIS reasons
All of the things HIS HOLY WORD does mention

What's Going On

Yochana the Psalmist

What's going on - right before the eye
Spiritual discernment is in need
For comes the season of G_D MOST HIGH
There is no stopping this - no way indeed

Stars peer down upon Earth fast asleep
Staying the courses always as told
Oh the testimony of Heaven shall keep
Time for us to be a witness - time for us to behold

Soon both Heaven and Earth shall bring the testimony
Of how all defiled - becoming corrupt
Separating the sheep from all the baloney
G_D did gift grace - HIS plan coming so abrupt

Here it comes - message straight from creation
There in the sky - yes this September
So very rare - coming upon this generation
Oh let us recall - let us remember

Oh how the stars and Heavens did sing
On that night - Yeshua came to man
Oh what love and grace did He bring
Please open the heart - please understand

Such celestial events are not a coincidence
How much more do we ask "what means this"
It is time to get off and over the fence
This be G_D's work - this be His

Psalmist your Yochana - praying on her knees
Pouring out the message of my soul
Won't you stop for a moment and listen please
Look to the sky - our Mashiach to extol

Great Babylon has come to G_D's attention
Now is His time - now is His judgment
Don't think there be a rapture or ascension
For those not even seeing the sign from Heaven sent

Signs and wonders - oh so often ignored
As in the days gone by - who would believe the report
But alignment celestial - soon be coming our way
Oh so very close to 5777 Yom T'ruah day
